

# Rayan Ahmad

## Junior Developer

I am a passionate and dedicated software developer with experience in a variety of programming languages and web development technologies. I am passionate about leveraging my skills in JavaScript, Java, C++, HTML, React, Next.js, Git, and GitHub to drive innovation and solve complex problems. I am eager to contribute my skills and learn from experienced professionals in an internship setting, where I can gain practical experience and continue to develop my programming abilities.

## SKILLS

HTML

CSS

JAVASCRIPT

REACT.JS

NEXT.JS

NODE

JAVA

MONGO-DB

SQL

Git and Github

## LANGUAGES

ENGLISH

Professional Working Proficiency

HINDI

Full Professional Proficiency

## INTERESTS

Exploring new programming languages and web development technologies

Honing skills in HTML, CSS, JavaScript, React, Next.js, MongoDB, and Node.js

## EDUCATION

### Bachelor of Technology(B.Tech)

University of Kalyani, West Bengal

10/2020 - Present

Kalyani, West Bengal

Courses

Information Technology

### Intermediate Education(12th)

K.N Memorial Academy

07/2018 - 07/2020

Munger, Bihar

## PERSONAL PROJECTS

### PORTFOLIO (09/2022 - Present)

- My professional portfolio website, built using React, React-Bootstrap, and Firebase. It showcases my projects, skills, and experience in the field of web development. The user-friendly interface and responsive design make it accessible on a variety of devices.
- link: <https://portfolio-ryan25nov.vercel.app/#home>

### CHECK-WEATHER (01/2023 - Present)

- Weather App built using HTML, CSS, JavaScript, and the OpenWeatherMap API. It showcases my projects skills in web development and API integration.
- link: <https://weather-check-two.vercel.app/>

### Calculator-App (10/2021 - 11/2021)

- As part of my development experience, I built a Calculator App using React and Material UI. The application allows users to perform basic mathematical operations such as addition, subtraction, multiplication, and division.
- link: <https://calculator-app-nu-red.vercel.app/>

### Movie-Overview-App (04/2022 - 06/2022)

- I have developed a movie-overview app using HTML, CSS, JavaScript, and The Movie Database (TMDb) API. This app enables users to easily search and discover information about their favorite movies, including movie titles, posters, release dates, ratings, and more.
- link: <https://movie-overview-app.vercel.app/>

### Library-Management-System (08/2022 - Present)

- I have developed a library management system using React that helps librarians efficiently manage and organize their library collections. This web application allows librarians to easily add, edit, and delete books, as well as keep track of borrowed and returned books.
